

FARHAD PASHAYEV

PROFESSIONAL SOFTWARE QA ENGINEER

Phone: +994514689054
Email: pasaferhad@gmail.com
Linkedin: www.linkedin.com/in/farhadpasha

SUMMARY

Professional QA Engineer with 3 years of experience in testing and validating scalable, high-performance web and mobile applications across both government and private sector projects in Azerbaijan. Skilled in ensuring software quality through manual and automation testing, with hands-on experience using Selenium, Cucumber, and Postman for API and UI testing. Familiar with core programming languages including Java, C#, JavaScript, and Python at a basic level, supporting test scripting and automation efforts.

Proficient in JIRA, Trello, and Git/GitHub for test and issue tracking, and experienced in CI/CD pipelines to support continuous testing and deployment workflows. Adept at working in Agile environments (Scrum, Kanban), collaborating closely with cross-functional teams to deliver high-quality, reliable software products. Committed to continuous learning and applying structured QA practices to improve product stability and user experience.

SKILLS

- **Test Automation & Tools/Programming language:**
 - Selenium WebDriver, Cucumber, Java and C# base, SQL, JUnit, TestNG, Postman
- **Version Control & Collaboration:**
 - Git, Azure, Jira, Trello, ClickUp, GitLab CI/CD
- **Methodologies & Frameworks:**

WORK EXPERIENCE

Software QA engineer , Azericard June 2025 -Present

- Worked at Azericard, Azerbaijan's national processing center, supporting American Express, UnionPay, and 17 international banks by ensuring high-quality QA processes.
- Performed manual and automation testing for the TezÖdə web application using Selenium WebDriver, Java, JUnit, TestNG, and Postman, focusing on regression, functional, and API testing.
- Conducted performance testing with JMeter for APIs and full system load, and implemented backend testing and monitoring tools for banking integrations.
- Designed and executed structured test cases, documented defects, and collaborated with developers and analysts to deliver stable, secure financial solutions on time.

Software QA engineer and Project manager, Plus Azerbaijan November 2024 -Present

- Led testing for mobile UI, restaurant admin panels, and ERP systems ensuring quality standards.
- Performed manual and automation testing using Selenium WebDriver, Java, JUnit, TestNG, Cucumber, JMeter, and API testing with Swagger and Postman.
- Managed project timelines and team collaboration using Trello.
- Coordinated between clients and developers to meet project requirements on time.

Software QA engineer, Code Lab Azerbaijan August 2023 - May 2025

- Led test automation for ERP systems (Studio, Kometa) and Code website, utilizing Java, Selenium WebDriver, JUnit, and TestNG.
- Conducted manual testing and API testing using Swagger, Postman, and SQL to ensure robust integration and data accuracy.
- Managed project timelines and tasks with ClickUp and tracked defects in JIRA within an Agile framework.
- Collaborated using GitHub for version control and code management.
- Enhanced test efficiency and coverage, continuously improving workflows and processes.

Manual QA engineer and Project manager, Bestcomp Azerbaijan

August 2022 - May 2023

- Worked on Mashin.al, Texnika.al, State Treasury (DXA), and Bestcomp websites, performing manual QA and content management tasks.
- Used Trello for task management and Postman for API testing.
- Conducted manual testing using tools such as JIRA, TestRail, Bugzilla, and SoapUI, ensuring web applications' functionality, usability, and security.
- Collaborated with cross-functional teams to meet project deadlines and maintain quality.
- Reported defects and tracked them in JIRA, ensuring proper resolution.

Freelance Work

May 2023 - Present

bbq.az, Project manager and Software QA engineer

- Acted as a liaison between the client and development teams, organizing brainstorming sessions and meetings with designers.
- Conducted automation and manual testing using Python and Selenium WebDriver, ensuring smooth functionality and bug-free user experience.
- Managed tasks and project timelines using Trello, coordinating efforts between teams to ensure timely delivery.

Mediatrends, Manual QA engineer

- Performed manual testing to ensure website functionality and user experience.
- Identified defects and collaborated with developers for quick resolution.

BEIC, Project manager and Software QA engineer

- Managed project timelines and facilitated communication between clients and development teams.
- Performed automation testing using Selenium WebDriver with Java and API testing to ensure functionality and data integrity.

EDUCATION

Web Development, Code Academy MMC

September 2022 - May 2023

Azerbaijan Technical University, AZTU

September 2017 - June 2021

LANGUAGE

- English - Pre-Intermediate
- Russian - Elementary Level
- Azerbaijani - Native
- Turkish - Upper-Intermediate
